Closest to 95

Version 2

Directions:

1. Cut out the number cards and spread them out facedown on the table.
2. Start at number 25. This will be your starting number for both players.
3. Player 1 picks a card and decides if they should add that number of tens or ones to the starting number (25). Write the equation on the recording sheet.
4. The sum becomes the starting number in the next equation.
5. Now Player 2 picks a card and repeats step 3. Each player must take 6 turns.
6. The player who gets closest to 95 without going over is the winner.

Player 1	
25	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____

Player 2	
25	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
_____	+ _____ = _____
